

Annual Report 2016-2017

From CEO's Desk

RASTA is marching progressively with its Vision & Mission aligned with some of the initiatives of the Government of India. 35% of our population is of youth and our young hands need skill for gainful work. Strategically we work with children focusing on girl child and also vigilant and open to new changes taking place in the country. We impart skill training to the youth and have already provided placement to good number of youth along with active participation in important programmes of Government of India such as 'Swach Bharat' and 'Beti Bachao - Beti Padhao' Mission.

2016-17 was a very fruitful year for RASTA in terms of enhancement of scope and outreach capacity. We stepped in NOIDA District of Uttar Pradesh and reinforced our program in Guru Gram district of Haryana. RASTA joined hands with two partners, namely, HCL Foundation and EMAAR for two different projects. Lot of activities including sports and National girl child day were celebrated with considerable visibility and participation of the community people. These activities worked as booster of morale and confidence of the community people.

Rasta is enhancing its scope by successfully reaching the unreached and moving ahead successfully towards accomplishment of its Mission. This is clearly indicated by multi-directional growth especially in geographical area, number of beneficiaries and size of yearly budget.

Rasta has ever been encouraging and enabling girls to become self- confident and self-reliant. Education of girls has helped them to transform their lives and become more adaptable to the changing needs of the country. Education has not only opened doors of bright future for girls but also helped them to improve quality of their life and their families. It has added dignity and honor to their life. Rasta has been successful to make the girls as source of inspiration for other people.

The organization has taken up projects in four sectors, i.e., Education, Vocational Training, Community Health and Women Empowerment for the development of underprivileged. Under these projects approximately 27000 people benefitted directly with continued support and active participation of our project partners who also interacted with the main stake holders regularly.

I sincerely thank our partners and well-wishers from the bottom of my heart. Without their generosity, this would not have been possible.

"A DREAM BECOMES A GOAL WHEN ACTION IS TAKEN TOWARD IT'S ACHIEVEMENT"

10th Standard Achievers for year 2016-17

Education

Education of children, especially girls, is the primary aim of Rasta. In 2016-17, nearly 19,600 children continued to get educated through interventions like Crèche, Pre-school, Formal Education, Non-formal Education, Remedial Education, and Distance Education. Development of innovative teaching learning materials was a continuous process to meet the changing requirement of teaching. Apart from teaching, various co-curricular activities were conducted for holistic development of children.

NIDHI ASPIRES TO BECOME A TEACHER

11 years old Nidhi started studying in Rasta school when she was 3. Her father, Late Mehtab, passed away 9 years ago. She lives with her mother, Neelam, who herself is visually impaired with only about 40% vision.

The source of income of the family is what Neelam earns from the small shop she is running. When Rasta teachers visited Nidhi's home years back they motivated her mother to educate Nidhi. Keeping under consideration the dire condition of the mother and daughter Rasta allowed full fee concession. She has been studying for 7 years and is in 6th standard now. With the help of consistent support, motivation and encouragement of Rasta, Nidhi has transformed into a smart and a confident girl. She aspires to become a teacher. The girl's determination coupled with Rasta's help and guidance will enable Nidhi to realize her dream.

SABINA AND HER YOUNGER SISTER ENROLLED IN SCHOOL CLOSE BY

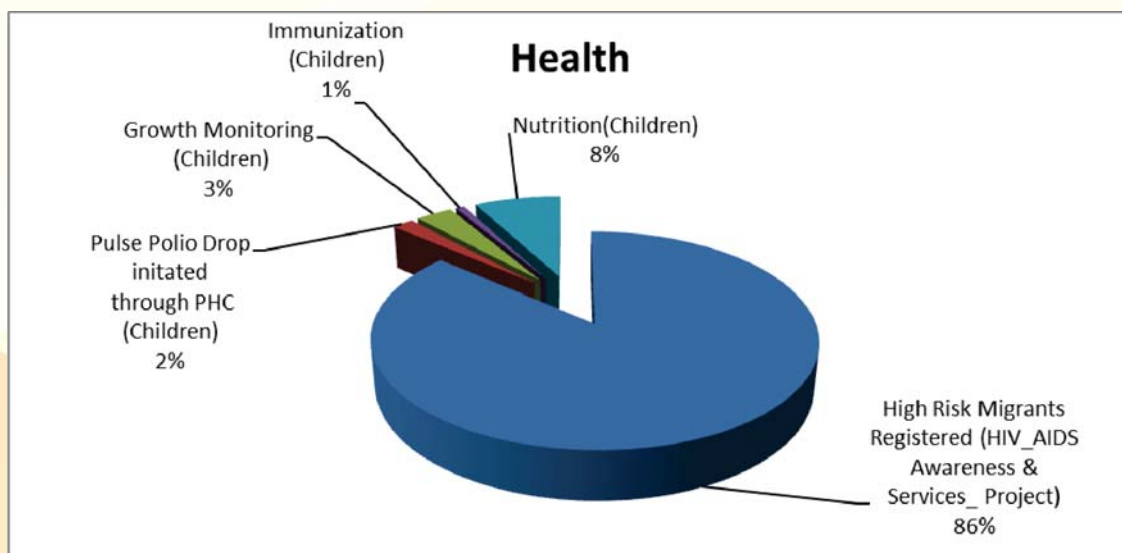

Sabina is 4 years old. She lives with her grandparents, mother and younger brother at Sarfabad, NOIDA. They migrated from West Bengal 5 years back to Sarfabad. Sabina's father abandoned the family 2 years back. Her mother is a domestic worker. In order to supplement the family income, Sabina started washing utensils in the nearby apartments. During community mobilization, Rasta staff interacted with her family and motivated Sabina's mother to send her children to school but she could not do so as she did not have sufficient information about the same. But after getting all information, she enrolled both her kids in Rasta centre in Pre-class. Seeing the

enthusiasm and ability of the kids, Rasta teachers suggested their mother to enroll them in government school. But since the Government school was too far, Rasta staff helped the children to get enrolled in the close by Saraswati Public School in nursery class. Now Sabina's mother saves money from her earnings and pays school fees for her kids.

COMMUNITY HEALTH

To ensure quality of life, Rasta ensures health intervention in three areas like preventive, promotive and curative health care. Various activities are conducted in the community to enhance their health awareness, like counseling, nutrition education, awareness on water & sanitation, health check-ups, immunization, HIV AIDS check-up & treatment, distribution of condoms etc. In health checkup camps, growth monitoring, vaccination and referral services are also provided. Rasta's linkages with different health institutions like Max Hospital, Sai Retina, Delhi Tuberculosis Association etc., enhance the effectiveness of these services.

Mumiran is happy because her four children are safe in Rasta's Day Care Centre

Rashida, hardly 1 year old, lives with her mother and 3 elder sisters, in Bestech slums in camp number 2 which is about two kilo-meters away from Rasta's Day Care Centre. Rashida's father, Aajur, abandoned his family and married someone else. To support the family Rashida's mother, Mumiran, has to go to work leaving her children alone at home. When the staff members visited the camp, they came across this family. Rashida was being fed a solution of white flour (maida) by her elder sister which was prepared by their mother. Seeing the plight of her four sisters, the staff decided to visit the site where their mother works and persuaded her to send her girls to Rasta Day Centre. After much persuasion, when Rashida's mother came to drop off her daughters she brought a bottle of water and white flour (maida) to be given to her children. The staff members explained to her how it is bad for her daughter's health by citing examples and also showing visuals from their flip charts.

Now the four sisters come to the centre everyday with their mother who drops and picks them after work. And they drink milk which is improving their health too. Rashida and her elder sister are in Creche, next elder one is in Balwadi and the eldest attends the non-formal education class.

Mumiran exclaimed with joy, "I am very happy today because I can work without any worry about my daughters and had Rasta not helped me it would have been next to impossible to bring them up."

Vocational Training

Rasta promotes Skill development not only among youth but also among ladies from all ages to promote livelihood and sustainability through different trades like, Spoken English, Retail Management, Personality Development, Basic Management, Computer, Tailoring & Beauty Culture etc. In 2016-17, youth were trained under different trades. After successful completion of respective courses most of them were facilitated to get suitable employment.

HARISH, IS WELL EMPLOYED

Harish, 18 years old, hails from Uttarakhand. After completing 12th, he came to Delhi and started living with his uncle. He started working in a Bakery on a part time job. Simultaneously, he took admission in BA at the School of Open Learning of Delhi University. During community visits, Rasta staff happened to meet him and motivated him to join Rasta's Vocational Training Programme. Harish joined the 4 months Data Operator's Course. Being already a student and a part time worker, it was very struggling for Harish to do all the three. But he managed and successfully completed the Data Operator's Course. He got a full time job, on a monthly salary of Rs. 8,500/- at Vertex Pvt Ltd. Later, he secured a better job on a monthly salary of Rs 10,500/- with 'Jemini Consultancy'. He now lives in Khora.

Harish supports financially his younger brother's and sister's studies, in Uttarakhand.

ARCHANA IS A 'COMPUTER INSTRUCTOR' NOW

19 years old Archana lives in Chilla village with her father, mother and brother. Her mother is a housewife and father a carpenter. Her brother is also studying.

After passing 12th from CBSE in 2015, Archana joined BA at the School of Open Learning of Delhi University. During community mobilization, Rasta staff interacted with her and motivated her to acquire job-oriented skill by joining any of the Vocational Training Programmes conducted by Rasta. She did a 4 months course in Computer Skills & English. Archana was quite shy and not confident in speaking English. Rigorous training at the Rasta VTC, transformed her into a self-confident girl, fluent in English conversation. After successful completion of the course, Archana secured a job as Computer Instructor, with "Bhagwat Dham NGO", in Mayur Vihar Phase-I, on a monthly salary of Rs 7000/- per month.

WOMEN EMPOWERMENT

Rasta focuses on women empowerment through social and economic interventions. Different activities are conducted in a year like formation of self-help groups, information dissemination. Rasta also helped them to establish their own work or business through facilitating loans from Self Help Groups.

RASTA HELPS A MOTHER TO BRING UP HER DAUGHTER

Rachna was enrolled in Rasta centre when she was 3 months old. Her family has migrated from Assam. Her father is a construction worker and mother a housewife. Her father was very unhappy when his wife gave birth to a girl child. He used to beat her and ask her to sell Rachna so that they could earn some money. Rachna's mother was not ready to do that. Later her father abandoned them and himself migrated to other place. During community mobilization Rasta staff found the mother and daughter struggling together. Rasta enrolled her daughter in the crèche center and also helped her. Rasta team made contacts with officers at the construction site and helped her to get some work to earn money sufficient enough to go back to her native place.

Rachna and her mother have now shifted to other center at Bestech. Rachna is doing well there.

ALL THE THREE CHILDREN OF MANJALI ARE IN RASTA DAY CARE CENTRE

Manjali is working as a Helper in Rasta's Bestech Centre, since last 1 year. Before joining the centre, she was working as construction labour, doing the work of head loading. She has three children Munna, Hasante and Aasma. Her son Munna is coming to the Rasta Centre since last year, but her daughters were living in their village with their grandparents. Manjali wanted her two daughters also to live with her so that she could take care of them. But she had no option because there was no facility at the site where she could leave her daughters. But when she saw the improvement in her son after coming to Rasta's Creche, she brought her daughters from village and enrolled them at Rasta's Centre. This way, now her two daughters are also enrolled in our centre and are getting all the necessary facilities which were earlier not available to them.

Manjali is now happy that her three children are well looked after. She thanks Rasta for this.
