## ANNUAL REPORT

**2007-2008**

Annual report 2007-2008 sent to  
DS 10/12

Secretary's opening address:-

It is my privilege and I feel pleasure in presenting the annual report for the year 2007-08. While presenting this report, it is at the back of my mind that I am not presenting mere data's in this report but giving an accountability of our performance vis-à-vis the objectives set in the beginning of each project handled during the report year. At the very out set I feel proud in mentioning that during this report year, we have extended our area of operation in one more locality in Distt Ghaziabad (UP) i.e. Village Khora adjoining Mayur Vihar Ph III. The organization had set its objectives in various sectors like education, health, income generation, formation of self-help groups etc at various locations under various projects at the commencement of the projects and the organization has achieved those objectives to the satisfaction of the funding partners as well as our own satisfaction. The statistics exhibited in the report will substantiate my statement. The appreciation of work done by this organization by the funding partners as well as by other well wishers itself speaks about the hard-work put in by this organization in achieving the set goals/objects. However, we don't want to be contended with our achievements and believe that there is sufficient scope for further progress and we will keep on struggling to excel our performance in future too.

The present report has been designed in three parts i.e. Part I – The Organization and its objectives, Part II - The infrastructure and resources available, and Part III - The activities and achievements

Rasta has applied for accreditation to NIOS to conduct examinations under Open Basic Education (OBE) for Primary (I to V standard) and Middle (VI to VIII). Once the accreditation is received, Rasta is planning to conduct examinations for all students of NFE centers as per the norms of NIOS and award certificate to successful candidates. This step will eliminate the fear from the minds of the parents that their wards have to go to far away places for study and examinations and increase the intakes in our centers.

The project 'education for minority girls' is a venture where girl students are full to the capacity of the center and there is encouraging response from the community to convert the existing center into a formal school. Rasta has identified the accommodation and forwarded estimates for modification of rooms to funding partner. Once the approval is received, necessary alteration will be carried out in the existing accommodation.

After making proper accommodation available for the school and receiving accreditation of NIOS, there should be no problems for converting the existing centers at Khora into a formal school.
